

Doctoral Supervision Agreement¹
(Faculty of Mathematics and Physics)

PREAMBLE

The doctoral candidate and his or her dissertation supervisors agree to the following terms in order to guarantee transparency with regard to the content and timeframe of the supervision relationship. The supervisor acts in this connection within the scope of his or her official duties for the University of Freiburg.

The agreement follows the currently feasible planning horizon and may be amended and updated by written mutual consent with regard to the research question to be dealt with in the dissertation project as well as the individual qualification elements.

Decisions on the acceptance of doctoral candidates are made by the responsible doctoral committee. The procedure for earning a doctoral degree is regulated by the applicable doctoral degree regulations. The supervision agreement does not serve as a substitute for either acceptance as a doctoral candidate or student registration or matriculation. Employment contracts remain unaffected by the supervision agreement.
